Fire Extinguisher

ORGANIZATION

Keep personal items tucked neatly away under a table or inside of a cabinet

Keep your fire extinguisher in an easily accessible area, and do not place items in front of it

Have a designated battery charging station to avoid cluttered wiring

GENERAL SAFETY

Wear gloves while handling the robot or attach plastic handles to the frame for transport

Tie back long hair

TRAINING & AWARENESS

Make sure all members in the pit know where safety items are located

All members should have basic tool safety training; demonstrations and presentations are often effective

Provide MSDS and SOPs available for machine and chemical use

SAFETY IS #1 PRIORITY
