GOGGLES

When **Bull City Botics** works on their robot **Bulltron** they always use items like **goggles** to protect their eyes and **gloves** to protect their hands! They also are careful to keep their area clean so they do not have to clean up a **spill**. They also keep a **fire** extinguisher close by their work area. **Safety** is very important to **FIRST** and Team 6332 when working with robots!
